

# EPS is celebrating its 30th Anniversary

EPS Group  
EPS Holdings, Inc.  
September 2021

Launched in May 1991 with a staff of only three, EPS has now grown into a corporation with more than 7,000 employees. On this occasion, we would like to express our gratitude for your continued patronage and support over the past thirty years.

Looking back over these thirty years, our lives have been enhanced by advances in medical care and technology, but on the other hand, conflicts are relentless, and the number of natural disasters caused by global warming are on the rise. The unexpected spread of the COVID-19 infection has made us rethink the roles and responsibilities of medical and pharmaceutical product development and distribution, the area in which the EPS Group has been involved since the company's inception, in society.

The slogan for our 30th anniversary is "New EPS begins."

We must press forward with bolder and more aggressive restructuring of the Group in order to remain a sought-after solutions provider. Anticipating the future of business environment in constant change, EPS will evolve and move forward as we pursue top-tier services for our clients.

We want to be the constantly evolving Ever Progressing System (EPS) that aims to be a bridge for the healthcare industry connecting everyone's health to the future. As well as expressing our heartfelt gratitude to all stakeholders, we hope for your continued support.

---

We will organize the following events/projects to commemorate the 30th anniversary of the EPS Group. In view of the COVID-19 pandemic, the dates and times are still being finalized.
